

Concrete Hoppers

Concrete Hoppers - The self-dumping hopper accessory could automatically activate to both dump and release as the bumper release touches the side of a dumpster. Once dumping is done, the hopper could return to original upright and locked position. This particular piece of machinery even comes together with a cable that enables operation from the seat of the lift truck in order to have the alternative of manually unloading the hopper. There is a locking chain provided to lock the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper likewise has a blue powder coat finish so as to maintain durability.
